

September 9, 2015

To whom it may concern,

Don Milligan worked for us at INETCO Systems Limited from March through August 2015. During this time he was employed as a Network Engineer. In this role he provided configuration support and troubleshooting for INETCO Insight our transaction monitoring product. These activities were in support of our Pre-Sales and Deployment teams.

Don demonstrated the ability to work independently and respond to customers' needs shifting his working hours to support them in their own time zones. He provided courteous professional response to everyone he dealt with. When faced with difficult problems, Don demonstrated a 'tenacious' attitude towards their resolution. We wish Don success in moving forward with his professional career.

Sincerely

Borre van Doorninck

Vice President Professional Services
